

2022 Kit Options

Kits include a plan set with a set of construction notes, and where needed full size patterns and drawings for things such as molds.

CNC cut molds are available at extra charge for all of our cedar strip boats, cost varies by boat size beginning at about \$275.

+ SUPs may now be ordered as hybrids with either partial or full cedar strip decks.

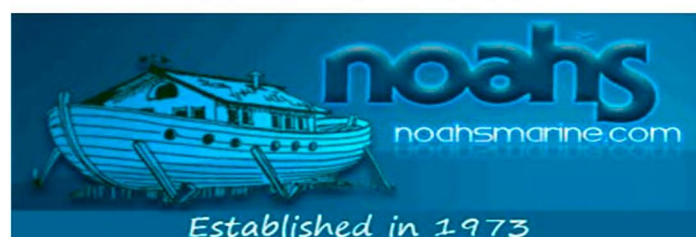

*Denotes that full size patterns are available at additional cost

^ Boats may be built as hybrids replacing the plywood deck with cedar strips, inquire for pricing.

Sailing and rowing kits come standard with all the pieces to build the *rowing version* of that craft. There are naturally more pieces to a sailing craft, inquire for pricing.

Kits are manufactured by Noah's, many of ours kits are available directly from their web site

noahsmarine.com

Build Options

Build prices listed are for boats is in basic configuration, for sailing/rowing boats that means set up to row w/o oars, we can order oars for you. Rigging for sailing is extra and includes mast, yards as required for the boat, required hardware, rudder & tiller, daggerboard does not include sail(s). For kayaks and canoes this means the boat is built as if from a kit and has none of the options listed below or any others installed or used in the build unless requested and priced before construction begins.

Staple Free Construction - Strip Canoes

add to complete boat cost

\$750 up to 10 ft. over 10 ft. + \$35 per ft.

\$750 + \$35 per ft of length

For Example 16' Canoe

Staple free Kayak Builds

\$800 to 10ft. over 10ft + \$35.00 per ft.

Decorative Accent Strips

\$50 per strip/per side
